

## Helping Emerging Technology Companies to Grow.

As the state's leading technology organization, the Washington Technology Industry Association provides a comprehensive set of programs, services and support for emerging technology companies. Join our association of more than 1,000 member companies and take advantage of our innovative Discounted Services Program for discounts on a wide range of business services. Our networking events offer you a chance to build relationships, find customers and generate visibility for your business. Our education and training resources are designed to help emerging companies grow.

MEMBERSHIP

**Get Group Discounts.** As a member, your business can take advantage of our Discounted Services Program for significant discounts on services, such as: health care, 401k, business insurance, payroll services, HR, office supplies and more.

**Meet People and Partners.** Growing companies need partners and contacts. Our diverse membership provides a wealth of opportunities for emerging companies to find the employees, investors, customers and partners that are essential to achieving growth objectives. As a member, you'll meet these professionals at our networking events and through our online community forums.

**Gain Access to Education and Training Resources.** Entrepreneurs and leaders of growing companies recognize that knowledge is the key to success. We offer a broad range of educational tools and resources such as: Special Interest Group meetings, technical training, seminars on key topics and more. All the resources and tools you need to support your growth can be found in one package: a Washington Technology Industry Association membership.

**Get Exposure.** Smart companies know brands are built and prospective customers are found—the WTIA can be your key to doing both. By joining, you are published in our industry directory and immediately expand your exposure and credibility throughout our network. While your membership expands your company's brand awareness in the technology industry, you are also financially supporting a non-profit organization.
