EVENTS

WTIA Events

Annual Industry Achievement Awards (IAA)

WTIA's Annual IAA Program celebrates technology leaders and innovators in Washington state. This event honors the men, women and their respective companies whose recent accomplishments have been noted by the WTIA and the technology industry of the Northwest. Noted as the technology industry event of the year, WTIA's IAA celebration attracts 1,000 business and community leaders who drive the growth of Washington's technology industry.

Annual Fast Pitch Forum & Technology Showcase (FPF)

WTIA's Annual investment event, the Fast Pitch Forum, provides a unique vehicle for new, fast growing, and promising technology companies in the Northwest to connect with key venture capitalists and technology buyers to provide an unparalleled exchange of business ideas, information and feedback. Nearly 300 attendees will gather to observe the presenting company forums and take advantage of leading speakers sharing trends and innovations in the technology industry and the investment community.

Annual Golf Open

The Washington Technology Industry Association Golf Open is the most memorable technology industry tournament in the Northwest. Consistently sold-out, the full-day tournament brings together nearly 150 executives from Washington state's leading technology and associate firms for a day of golf (best ball format) and networking on the green complete with a post tournament awards banquet.

Technology In Focus Evening Programs (TIF)

WTIA Evening Programs bring together the largest cross-section of attendees at a WTIA event. Plus, the networking time prior to the presentation gives attendees the opportunity to connect with other industry professionals.

Networking Events

WTIA's Networking Events are a great place to connect and grow with Washington's technology leaders and professionals. Networking events are held both in Seattle as well as in the Bellevue/Kirkland area, and normally draw more than 200 people. It's a perfect way to enjoy hors d'oeuvres, and special drink prices while connecting with the WTIA's tech community.

Urban Leadership Series (ULS)

This series was created as a unique forum for the technology community, business owners, corporate and government officials to connect over hot topics and common issues that are happening in the Puget Sound region. The ULS will feature some of today's most dynamic technology and business leaders, as well as government officials who will share their insights on the present and the future of technology, economic, policy, and environmental trends and issues that we need to be aware of in order to prosper in this technological and global economy that we live in today.

Special Interest Groups (SIGs)

SIGs meet to discuss a common interest in a particular topic. SIGs provide excellent opportunities for developing and maintaining professional contacts, promoting industry awareness and extending the technical knowledge of members.
