

Join the State's Leading Technology Association.

If your business develops, sells or uses technology, the Washington Technology Industry Association is for you. We're the community of technology-focused individuals and companies and our mission is to help you and your business succeed. Join us and become part of a network of established business leaders, innovators and entrepreneurs from across the state of Washington. You'll grow your business, develop your professional connections and be part of a vibrant community. You'll also gain access to a variety of benefits ranging from timely events, to group discounts.

"The level of dedication you have given to us and the industry is astounding; the services that are offered in addition to the people we get to work with – whether its through the health plan, networking functions or business services – are exemplary." - Ricci Rukavina, President & CEO, Loose Cannon Studios

Meet People. No other organization can connect you with so many technology professionals and businesses. Get involved by attending an event or utilizing our online forums.

Stay Current. Ours is a rapidly changing industry and our events keep you in the know. Our annual events, evening programs, breakfast series, networking events, executive seminars, special interest groups, and education sessions are all designed to help you stay current with key industry trends.

Get Group Discounts. As a member, your business can take advantage of our Discounted Services Program for significant discounts on services like health care, 401k, conferencing services, corporate travel and more.

Recruit Key Talent. Our focus on the technology community makes the WTIA the ideal organization for finding talented and experienced employees.

Get Exposure. Expand your company's brand awareness among technology companies by sponsoring an event.

Brand Yourself. Make a name for yourself and your skills in the technology industry by speaking, networking or volunteering with the Programs Committee.

Ensure Your Voice is Heard. The Washington Technology Industry Association is an advocate for the technology industry on local, state and national levels.
