

## Leveraging the Power of Community to Deliver Discounted Services.

The Washington Technology Industry Association is focused on delivering value in many ways for our members. Our Discounted Services Program is one of the most valuable services we provide to our members. The association represents 1,000 member companies who benefit from the collective purchasing power of more than 100,000 individuals. We leverage this large membership pool to offer you the best prices on a number of business products and services. The WTIA has selected only the best service providers - assuring our members the highest quality and most affordable services for their business.

### The Discounted Services Offers Many Ways to Save

**Insurance.** As a WTIA member company, you can take advantage of your choice of two different comprehensive employee benefits programs, designed specifically to meet the needs of technology companies. There is also a complete range of automobile, home, and other personal insurance protection available to your employees.

**HR/Finance.** The WTIA offers discounts on HR and finance products and services such as Human Resources, 401K retirement planning, payroll discounts, discounts on compensation data that reflect today's job market, and office supplies at discounted rates.

**Marketing & Communications.** Members can take advantage of discounted media services including press release distribution, custom email and fax distribution, and press room hosting. Members can also benefit from discounts offered on royalty-free and rights managed images and CD's.

**IT.** As a WTIA member, you can take advantage of discounts on computer equipment, audio & web conferencing and discounted rates on IT training, consulting, and skills management services.

**And More.** Members can also take advantage of discounts on everything from corporate travel services to international job posting and more.
